

How to Scan a Receipt

Scan a receipt in the app to earn points on your purchase. Follow these steps from the home page.

1. Tap to Scan — find **Tap to Scan Receipt for Points!** on the home page.

💡 This function only works if:

1. **Location services** are enabled for the app.
2. The user's **location** is at a store.

Tap to Scan Receipt for Points!

Must be scanned in-store

All Restaurants

2. Select store — choose the store (automatically sorted by distance from your current location).

“? The store selected must match the store on the receipt to ensure points are accurately credited.
